

Sec. 114-578 Residential Permit Parking (Charleston City Code)

Excerpted where relevant

“Authorized permits: If a residential parking area is established by city council, each residential unit may ...obtain a maximum of two permits for specific vehicles owned by the residents. One visitor permit per residential unit may also be obtained. Owners of non residential buildings within the designated area may purchase one visitor permit.”

Sec. 114-579 Residential Permit Parking Policy

“In order to obtain a permit (residential parking permit), the resident must make written application to the parking system for the number of permits sought. In addition to the resident’s name and address, the applicant must provide the make, model, color, license number and vehicle identification number for the vehicles sought to be permitted.

To obtain a residential parking permit the resident must show photo identification with their name and current address. The resident must also show a current vehicle registration card for each vehicle for which a permit is sought. In the case of a company owned or leased vehicle, the resident must provide verification from the owner that the vehicle is assigned to the resident. Each permit is only valid for one specifically identified vehicle.

If a resident changes vehicles, the old permit must be surrendered prior to receipt of a new permit. The resident must provide the information set forth above for a new vehicle prior to receipt of the new permit.

A visitor’s permit may not be used for any person and/or vehicle that is not visiting the residence for which the permit was issued. Violation of said visitor’s permit will result in cancellation of the visitor permit. The visitor permit must hang from the rearview mirror of vehicle.”
